

FLY SURFER

ERA

SIZES: 5 / 6 / 7 / 8 / 9 / 10 / 12

TECHNOLOGY: 5-strut L.E.I. Kite, ultra-fast profile, high aspect ratio, 6-point Bridle

FOCUS: Big Air

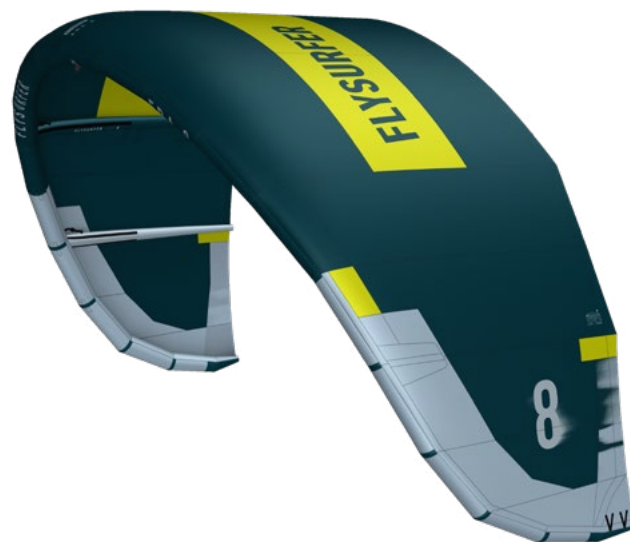

SKILLS: Intermediate - Professional

USP: Acceleration / Agility

We want to specifically appeal to young, ambitious riders hungry for competition and need a kite to push the limits. The ERA is our jumping machine and a high-performance freerider that impresses with speed, agility, and control. Rely on consistent bar feedback and cover an enormous wind range.

We stay true to the most trustworthy and tested materials on the market so they can feel secure in pushing the limits. The durable Dacron leading edge and reinforced construction hold its shape over time, promising reliable performance even with heavy use.

Get ready and tackle the most extreme conditions with confidence.

HIGHLIGHTS:

PINNACLE OF BIG AIR PERFORMANCE

REMARKABLE TURNING ABILITY

SMOOTH AND STEADY RIDE

TECHNICAL FEATURES

Streamlined Construction - lighter weight and faster flying

The most streamlined and lightest frame we've ever built delivers rapid acceleration, quickly bringing the ERA to the edge of the wind window in gusts so you can reduce power more efficiently.

Dacron leading edge - designed with durability in mind

We stay true to the most trustworthy and tested materials on the market so you can feel secure in pushing the limits. The durable Dacron leading edge and reinforced construction holds its shape over time, promising reliable performance even with heavy use.

D2 Canopy with Fewer Panels

Reducing the sail segments saves weight and allows the air to flow cleanly over the canopy, generating more lift. A lighter kite flies faster and is more reactive, and the ERA delivers efficient acceleration through the wind window, converting speed into altitude.

6 Point Bridle with Ronstan Pulleys - for rigid shape and progressive turning

The bridle's rigid support keeps the kite in its optimal shape and allows twisting in the right place. A Ronstan pulley on each side of the bridle keeps the kite in its ideal position during every maneuver. The ERA has an extremely progressive turning radius and accelerates consistently through the loop.

COMPARISON

ERA	BOOST ⁴
Light bar pressure	High bar pressure
More hangtime	Good grunt
Very fast turning	Easy relaunch
Recovers very well after a loop	
Efficient depower	

ERA	STOKE ³
Better Performance	Light bar pressure
Covers a wider windrange	Better drift
More lift and hangtime	Gentle pull during a loop
	Better top end

ERA

For everyone who wants to compete at the highest level or get there in the shortest possible time! Cutting-edge competition equipment, easy to control for every freerider.

BOOST

The BOOST features consistent pull and reliable relaunch. It's ideal for beginners who want to improve their skills in light winds.

STOKE

The STOKE has great drift and an impressive top end, ideally suited for wave riding.

PERFORMANCE FEATURES

PUSHING THE BOUNDARIES OF BIG AIR

Take yourself to unprecedented heights with the ERA. Its high aspect ratio design provides the perfect combination of lift and stability, allowing riders to launch themselves into the stratosphere. Whether you're a pro pushing the limits or a progression-focused rider who wants to set your personal best, you can trust the ERA to take you there. Enter a new ERA and reach extreme heights!

BUILT FOR THE EXTREMES

When it comes to raw power, the ERA stands in a league of its own. The most powerful LEI kite in our range, you will feel a relentless surge of energy in every session. Its advanced construction, and high-quality materials ensure that no gust goes to waste. The ERA's streamlined build makes it agile in the air, with the strength and stability to give you the confidence to tackle challenging conditions easily. Trimmed and tested in Cape Town by world-class athletes, this kite can handle anything you throw at it.

EXCEEDS EXPECTATIONS

Designed to win competitions, the ERA is everything you need on your journey to the top. Experience out-of-this-world double loops on the 5m, 6m, and 7m sizes, and extreme megaloops on every size in the range, including the 10m and 12m. The ERA has the performance that professional riders need to go all the way to the top step of the podium and the power that every rider needs to exceed their expectations!

DON'T LET YOUR GEAR HOLD YOU BACK

Experience limitless progression with FLYSURFER. It's the era of big air, and we are 100% invested in helping our riders achieve their best-ever performance. In the hands of an expert, the ERA is unstoppable. For those with big dreams, this kite offers a supremely reliable ride, easily accessible to riders of all skill levels. Get the best out of your session with the ERA!

RANGE OF USE

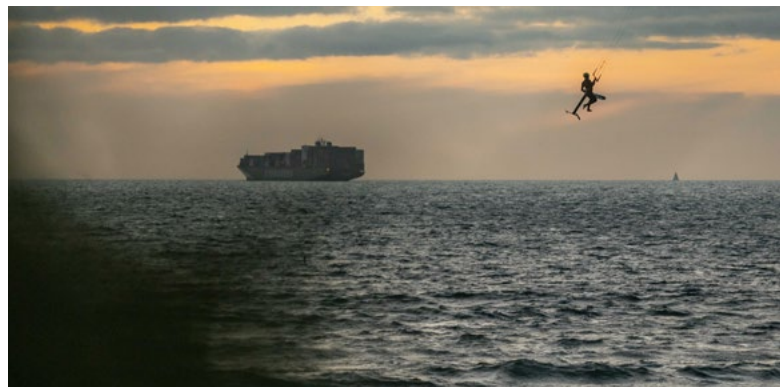

MODERN BIG AIR

Do what you've ever dreamed of! The ERA is highly agile, super efficient, and quickly catches you after every loop. To increase your confidence, it remains predictable in the extreme and easy to handle. Precisely navigate the kite through the wind window during the most complex tricks and land playfully after your most radical airs. Only with controllable performance can you advance into a new era!

HIGH-PERFORMANCE FREERIDE

The ERA is tailored to every ambitious freerider who wants to get the most out of every opportunity. Convince yourself of the inspiring maneuverability and high efficiency, and rely on FLYSURFER quality for maximum performance over countless sessions. Kite carefree and make use of every jump until you reach perfection!

HYDROFOIL-FREESTYLE

Unlimited progress, with typical FLYSURFER performance genes. Use the ERA as a training kite and practice your new, highly complex tricks in light winds. Count on upwind performance and a playful relaunch. Internalize your movements to perform at the highest level in conditions where it counts!
